

Superfusion weld rod is manufactured by FHS from the highest quality resins available, FHS uses 100% virgin material and absolutely no reground materials are used in our weld rod manufacture.

All weld rod is packaged immediately after it is manufactured preventing exposure to UV or other contaminants.

Our weld rod is manufactured at the lowest possible temperature preventing degradation during manufacture.

Superfusion weld rod is available in a large range of materials, sizes, colours, profiles and package sizes and made to a tolerance of +/- 5%

Other materials, colours and profiles can be made to order.

Superfusion weld rod is proudly manufactured in Australia
